

Dmitri Claasen

ICT Technical Consultant

Address: Westvale, Pioneers Park, Windhoek, Namibia

Email: dmitri@twinrain.com

Phone: +264814547499

Linkedin: [Dmitri Claasen](#) | [LinkedIn](#)

Education:

Namibia University of Science And Technology (NUST)

Bachelor of Computer Science
(Cybersecurity)

Certificates and Badges:

Cisco Networking Academy Badges:

- Networking Basics
- Networking Devices and Initial Configuration
- Network Addressing and Basic Troubleshooting
- Network Support and Security
- Network Technician Career Path Exam
- Introduction to Cybersecurity
- Endpoint Security

Cisco Black Belt Academy:

- Small and Medium Business - Sales
- Small and Medium Business - Presales

Fortinet:

- Getting Started in Cybersecurity 2.0
- Introduction to the Threat Landscape 2.0
- Fortinet Certified Fundamentals Cybersecurity

RedHat:

- Red Hat Portfolio: Foundational

ExtremeNetworks:

- Extreme Certified Associate in Extreme Switching
- Extreme Certified Associate in Extreme Fabric Connect
- Extreme Certified Associate in Solutions Design
- Extreme Certified Associate in Solutions Selling
- Solutions Selling – Extreme Sales Pitch
- Solutions Selling – Outcome Based Selling
- Solutions Selling – Sales Proposal
- Extreme Certified Professional in Solutions Selling
- Extreme Certified Professional in Solutions Design

Professional summary

As an ICT technical consultant at Twinrain, I am committed to leveraging my expertise in computer science and cybersecurity to address the complex challenges faced by organizations. With certifications from Extreme Academy, Cisco Networking Academy and the Black Belt Academy, I possess a solid foundation in networking, security, and sales. I am dedicated to continuous learning and growth, striving to become a trusted advisor in cybersecurity and contribute to Twinrain's success in delivering innovative ICT solutions to clients.

**In recognition of the commitment to
achieve professional excellence**

Dmitri Claasen

has successfully satisfied the requirements for:

**Red Hat Portfolio:
Foundational**

May 07, 2024

Issued by Red Hat

Verify: <https://www.credly.com/go/6hvh2SBY>

This certifies that
Dmitri Claasen
has achieved
Fortinet Certified Fundamentals in Cybersecurity

Date of achievement: May 3, 2024

Valid until: July 12, 2026

Certification validation number: 9167794948DC

Ken Xie
CEO of Fortinet

Michael Xie
President and Chief Technology
Officer (CTO), Fortinet

Certificate of Course Completion

Dmitri Claasen

has successfully achieved student level credential for completing the Networking Basics course.

The student was able to proficiently:

- Explain important concepts in network communication, network types, components, and connections.
- Explain the importance of standards and protocols in network communications.
- Explain how communication occurs on Ethernet networks.
- Explain the features of an IP address and IPv4 addresses are used in network communication.
- Explain features of IPv6 addressing.
- Explain how routers connect networks together.
- Use various tools to test and troubleshoot network connectivity.
- Configure an integrated wireless router and wireless client to connect securely to the internet.

Certificate of Course Completion

Dmitri Claasen

has successfully achieved student level credential for completing the Networking Devices and Initial Configuration course.

The student was able to proficiently:

- Explain components of a hierarchical network design.
- Calculate numbers between decimal, binary, and hexadecimal systems.
- Explain how Ethernet operates in a switched network.
- Calculate an IPv4 subnetting scheme to efficiently segment a network.
- Explain how ARP enables communication on a local area network.
- Explain how DNS and DHCP services operate.
- Compare the operations of transport layer protocols in supporting end-to-end communication.
- Use the Cisco IOS and build a simple computer network using Cisco devices.

Certificate of Course Completion

Dmitri Claasen

has successfully achieved student level credential for completing the Network Addressing and Basic Troubleshooting course.

The student was able to proficiently:

- Explain how physical layer protocols, services, and network media support communications across data networks.
- Explain how media access control in the data link layer supports communication across physical and logical networks.
- Explain how routers use network layer protocols and services to enable end-to-end connectivity.
- Implement an IPv6 addressing scheme.
- Describe Cisco routers and switches.
- Troubleshoot basic network connectivity issues.
